

Background

Bromley Third Sector Enterprise (BTSE) is made up of

- Age UK Bromley & Greenwich,
- Bromley, Lewisham and Greenwich Mind,
- Bromley Mencap,
- Citizens Advice Bromley,
- Community Links Bromley and a growing number of Associate Member organisations.

We work in partnership with service commissioners and the not-for-profit sector for the benefit of local residents.

Our mission is to facilitate the delivery of collaborative third sector services for the benefit of local communities. We do this by providing consultancy, contract and project management.

We may be small in numbers but we're managing the delivery of health contracts worth in excess of £11m over 5 years. Our collaborative approach means we're able to draw on the expertise of colleagues working across all sectors for the benefit of local communities.

Based in Bromley in South East London, we work with local, regional and national organisations.

BTSE team

We're a small, multi skilled team with a combined experience of many years of working in and alongside charities, statutory services and the business sector.

The organisation has evolved significantly since we started out in 2015 and has huge potential for innovation and growth.

You'll be joining a professional, friendly team with plenty of scope to contribute and develop your own skills and experience.

Bromley Well

Our largest contract is for "Bromley Well", an early intervention and prevention service we manage for the London Borough of Bromley. We are responsible for the delivery, monitoring, reporting and quality of all services as well as all communications, branding and marketing.

Bromley Well is jointly commissioned by Bromley Council and the local NHS and the services are delivered by 4 large local charities, our third sector partners.

More information about Bromley Well and BTSE can be found on our websites:
